

Header Pak™ & Leak Proof Bags

Header Pak™ bags are an excellent intermediate solution to automated packaging equipment. Excellent for line or work station to speed up manual packaging operations. Bags are side sealed, packed 100 per pack and stapled to a chipboard header.

Leak Proof bags are constructed from clear seamless tubing and bottom sealed (no side or slit seals) and contain an EVA additive for extra strength.

- Each Header Pak™ contains 100 bags
- Each Pak is on a stapled chipboard header
- EVA additive prevents the Leak Proof Bag from bursting or leaking, ideal for transporting tropical fish

Header Pak™ Bags
